# Weather Key Points

Regional Operations Center

Western Region

Friday, September 30

- No widespread or significant weather impacts are expected across the state through the weekend and much of next week, with seasonable early October temperatures and mainly dry weather continuing
- Locally breezy winds will be noted across the southern California mountains and foothills most afternoons and evenings through the middle of next week, bringing localized elevated fire weather conditions
- A few isolated thunderstorms also can't be ruled out across the southern California mountains on Sunday, though widespread precipitation is not expected

# Precipitation Forecast

Regional Operations Center

Western Region

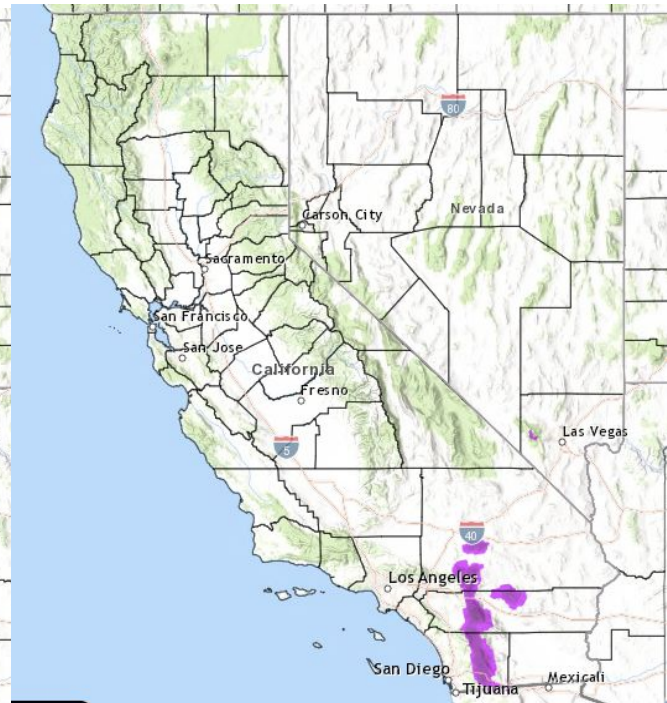

Friday, September 30

Friday

Saturday

Sunday

**Important Note:** Forecast precipitation amounts are an average for any particular location. Thunderstorms will produce locally much higher rainfall amounts.

Precipitation (inches)

# Weather Outlook (6-14 Days)

Regional Operations Center  
Western Region  
Friday, September 30

## **6-10 Day Outlook (October 5 – October 9)**

### **Temperatures**

- Above normal temperatures are strongly favored statewide

### **Precipitation**

- Near normal precipitation is favored for the majority of the state, with above normal precipitation favored across southeast California

## **8-14 Day Outlook (October 7 – October 13)**

### **Temperatures**

- Above normal temperatures are again favored statewide

### **Precipitation**

- Near normal precipitation is favored for most areas, with the exception of far southeast California where above normal precipitation is favored

# Risk Assessment Matrix

Regional Operations Center

Western Region

Friday, September 30
